Pathway to Success – Brick Program

Pave the way and show our kids you believe in their success.

Through our Pathway to Success program, you can show your support for The New Foundation by setting it in stone. We offer bricks for purchase with a personalized engraving and it will be paved directly onto a pathway on our campus for all to see.

When you purchase a brick, it goes directly to support the programs that enhance the services we offer and gives our kids the hope they need to be successful in their treatment plans. These programs are not part of contracted care funding, but help to maintain a therapeutic environment where the whole person is nurtured. These programs include art and pet therapy, craft classes, holistic and team recreation, writing programs and job readiness.

Brick Engravings are Great for:

- Honoring a loved one
- Celebrating a family event
- Corporate sponsorship
- Gifts or memorials

Each brick is $75.00 and directly supports our therapeutic programs.

All bricks are a standard size and allow for up to 3 lines of text with up to 15 characters per line, including spaces and punctuation.

The New Foundation helps families address adolescent behavioral and mental health through education, intervention and treatment. Find out more about us at www.thenewfoundation.org EIN # 86-0225726
