

The New Foundation (TNF) DAP & Diversion 28-day residential program offers an environment of hope and healing for adolescents and families struggling with anger, poor coping skills, family conflict, poor relationship skills, and legal involvement due to these issues. Our strength-based philosophy along with individualized care, expertise, and compassion break destructive patterns that cause pain and conflict— replacing those with different learned behaviors to bring about recovery.

For over 40 years, our dedicated team has been strengthening families through intervention, education and treatment.

CONTACT US **Diversion and DAP**

“ I was nervous about going to [The New Foundation](#), but after I got there they really helped me learn how to control my anger and improve my relationship with my mom”

DAP/Diversion

The DAP (Detention Alternative Program) consists of the following:

- o Individuals will live on-campus under the supervision and structure of behavioral health staff whom are trained in the strength based approach and are responsible for maintaining structure. Please note we are not a locked facility.
- o Two-hour family sessions occur each week (**Mandatory**).
- o Parent Education Group is offered every Monday night from 6-8pm (**Mandatory**).
- o All individuals attend The New Foundations school on campus which is The Marion Burton School. This is an accredited school providing academics for those residing in one of our programs.
- o Therapeutic visits/passes will occur during your child's time in the program to determine progress in the program and allow for a smooth transition allowing client to demonstrate their coping skills in a home environment. This visit/pass schedule includes:
 - Week 1: Up to four hours on-campus
 - Week 2: 8 hours off-campus
 - Week 3: 24-hour overnight
 - Week 4: 48-hour weekend

DAP/Diversion

Both programs offer individuals a chance to work through emotional and psychological distress that keep them from living a healthy lifestyle. This includes being able to focus on building their communication skills, anger management, distress tolerance, and family conflict resolution through both group support and family counseling while being in a safe therapeutic environment.

What We Offer:

- Comprehensive Assessment
